

Price Change FAQs

Why are you raising your prices now?

For Taurus to continue to grow and serve more Austin dogs in the future, we must stay competitive.

- All of our facilities are located in convenient urban neighborhoods, rather than on the outskirts of town. We also offer longer, more convenient open hours than most other kennels.
- This is our first price increase in nearly four years. Our new rates are comparable with other area kennels.
- Remember that Taurus never charges extra for special diets, giving medications, playtimes, or lavish TLC from our staff!

What makes Taurus extra special? 😊

We're proud that our staff is highly educated in dog health and behavior!

- In 2007, our staff successfully completed more Certified Pet Care Technician exams than any other company in our region (which includes all of Texas, Arkansas, Louisiana, and Oklahoma!). Through our participation in ABKA, we are taking an active role in shaping the future of this industry.
- Members of our staff frequently attend continuing education seminars. Recent topics include: Pet First Aid and CPR, Fear & Fear Reactive Dogs, Evolutionary Development of Dogs, and Canine Nutrition.
- We now have fully developed dog training teams at two of our three locations. All of the dogs in our care benefit from our trainers' expertise.

Taurus is continually improving!

- Keep an eye out soon for more about our "green" initiatives.
- The house food at Taurus is better than ever. We continue to carefully monitor food safety issues and the newest information about canine nutrition.
- Taurus' involvement with charitable organizations in our community grows each year. Look for us at the upcoming Mighty Texas Dog Walk, Pride Fest, Emancipet benefits, and other events throughout the year.

Please let us know if you have questions or suggestions!
